Hi Dacks

Remember me? David Allan. You were a boarder at Birkenhead School in School House - where we first met along with Rogers, Stenhouse, Bonney, Jones and others.

At school you were a complete mad cap, kicking a rugby ball over the roof of School house and into Shrewsbury Road jumping from that window on the second floor of the House into a cushioning bush below.

For Old Birks you were a great scum half inventive, quick thinking, courageous and you scored tries and what a sevens player!

Thank you for those happy days and happy memories.
